designed by Christopher Smith

RESPLENDENCE + ARDOR

The STAINLESS TRIO PENDANT trebles the power and potential of the lovely SOLO PENDANT. Choose the character you desire by adjusting the wood veneer shades to a practical single level or to dynamically varied heights. Light pours down through the mirror polished solid stainless steel bases, up to the stainless steel canopy, and through the three wood veneer shades of your choice. Consider floating the TRIO PENDANT above a dining table, a bar, or in that particularly special space.
