

UNION WOOD GROUP SCONCE 1

## UNION WOOD GROUP

### SCONCE 1

Dynamic and robustly modern in form, the UNION WOOD / SCONCE 1 calls attention with a single torch of warm light in a hand blown glass diffuser. Cleanly refined forms are cut from blocks of exquisitely figured, quarter sawn American hardwoods. The curvaceous stem and tablet-like wall plate expose an abundance of swirling grain lines, offering inspiring variation in every piece. Mount individually or in a series, for maximum impact.

## SPECIFICATIONS + FINISHES
